## Growing Together. Building a Sustainable Tomorrow

While many say 2026 will be difficult, we believe otherwise. Our trust in God, together with our dedication and wisdom, strengthens our faith. This January, we renew our replanting efforts with our committed team and supportive farmers, continuing our humble initiatives toward food and supply sufficiency.

Planting seedlings is not just about agriculture, it is about unity, stewardship, and transformation. It means turning barren lands into productive fields, restoring environmental balance, and creating spaces where future generations can learn, appreciate, and carry forward farming initiatives and agriventures with purpose.

| Company Spotlight

## Meet Us

One Harvest Global Corporation is a feed ingredients company specializing in high-quality macro and micro ingredients tailored to the formulation and needs of feed manufacturing plants, animal farms, agri-veterinary establishments, and technical professionals/experts for poultry, livestock, ruminants, and aquatic species since 2012.

# Ideas that Grow into Change

What began as a simple plan in our office has blossomed into a true source of inspiration, a customized machine born from our social responsibility initiative. Our vision was to create something sustainable, environmentally friendly and impactful, turning ideas into transformation.

While the journey requires time, efforts on further studies, and research by trial and errors, our goal remains clear: to make a meaningful difference in agriculture and championing impacts on environmental sustainability by turning Waste into Worth or Trash into Treasure.

*Shared steps, no matter how small, create powerful change.*

**Tips & Trick**

## Ways to help our Home Environment

**Keep a clean environment**

Dispose waste properly, don't litter, join community clean-ups

**Maintain gardening**

Grow trees, fruits, and vegetables at home to absorb carbon and improve air quality.

**Save Electricity**

Turn off electrical devices when not in use

**Educate Others**

Share information to raise awareness about environmentally friendly practices to have an impact.
